

Cement the Clouds -- more than just a continuation of where his last album, Night, left off. CAC War Kitty takes you into familiar, yet uncharted territory. From ballads, to energized dance sequences, to mind altering soundscapes, an experimental journey is evident throughout the 13 tracks. Exploring the use of melody as a lead, as well as a supporting element, CAC War Kitty bends and combines genres in ways that are unexpected, showing the true spirit of joyous adventure.

Dark Electronica

A beautiful Yin and Yang between electronic dance and all that is experimental
